Completed Action Before Something in Past

The Past Perfect expresses the idea that something occurred before another action in the past. It can also show that something happened before a specific time in the past.

EXAMPLES:

1. I had never seen such a beautiful beach before I went to Kauai.
2. Had you ever visited the U.S. before your trip in 1992?

1. We had had that car for ten years before it broke down.
2. By the time Esaki finished his studies, he had been in London for over eight years.

IMPORTANT Specific Times with the Past Perfect

Unlike the Present Perfect, it is possible to use specific time words or phrases with the Past Perfect. Although this is possible, it is usually not necessary.

EXAMPLE:

She had visited her Japanese relatives once in 1993 before she moved in with them in 1996.

Beginner

Past Perfect Tense

If the Past Perfect action did occur at a specific time, the Simple Past can be used instead of the Past Perfect when *before* or *after* is used in the sentence. The words *before* and *after* actually tell you what happens first so the Past Perfect is optional. Both sentences below are correct.

EXAMPLE:

1. She had visited her Japanese relatives once in 1993 before she moved in with them in 1996.
2. She visited her Japanese relatives once in 1993 before she moved in with them in 1996.
