Introduction

All presentations have a common objective. People give presentations because they want to communicate in order to:

- **inform**
- **train**
- **persuade**
- **sell**

A successful presentation is one of the most effective ways of communicating your message. And because English is so widely used in international business, a working knowledge of the vocabulary and techniques used in an English language presentation is a valuable asset.

We will start by exploring

the importance of preparation.

After that, we will consider

what equipment to use.

Then we will look at

how to "deliver" a presentation.

After delivery, we will examine

the language of presentations,

before moving on to

the presentation itself.

Finally, we will conclude with

a review of what we have covered.
