

INDEPENDENT QUESTIONS

- Q1: Describe a class you have taken in school and explain why the class was important to you. Include details and examples to support your explanation
- Q2: Who do you feel close to in your family (or extended family)? Describe this person and say why you feel close to him/her.
- Q3: Talk about something you and your family enjoy doing together. Describe it and explain why you all enjoy it.

INTEGRATED TASK

Now listen to part of a talk in a biology laboratory. The teaching assistant is explaining how to use the microscope.

Question: Using the main points and examples from the talk, describe the two major systems of the laboratory microscope, and then explain how to use it.

Preparation time: 20 seconds

Speaking time: 60 seconds

higher power in other words, at a higher magnification, you see a larger image of a smaller area only. So what about the focus? Well, these microscopes are parfocal, and that means you usually don't have to refocus when you switch to a higher or lower power of magnification. But there are two adjustment knobs—the larger one for coarse adjustment and the smaller one for fine adjustment just in case.

Narrator 1: Using the main points and examples from the talk, describe the two major systems of the laboratory microscope, and then explain how to use it.
