Questions 186-190 refer to the following advertisement and book review.

New from Kessler Publishing!

Our Friends in the Sky

by Elsa Bolocco

Popular nature enthusiast Elsa Bolocco has written what may be the definitive guide to bird-watching. Having traveled the world for more than a decade, Dr. Bolocco has observed and catalogued over 400 species of birds, and the result is a superbly written book that even casual admirers of birds will find hard to put down. The book provides information about every species Dr. Bolocco has observed but gives special attention to 50 birds that she considers to be the most intriguing. Detailed and entertaining descriptions of these birds are accompanied by color photographs from acclaimed nature

A faculty member at Arizona State University, Dr. Bolocco studied hundreds of birds, cataloging their physical characteristics, eating habits, and travel patterns. All of this information is neatly captured in the book's intricate charts and thorough appendices. However, much of the pleasure of the book comes from the author's recounting of her personal experiences as she observed these magnificent creatures, as well as from the stunning color photographs by the skillful Thomas Roche. Overall, the book should appeal to the casual reader, although the section by Erica Faber seems out of place and too technical for a non-specialist.

186. What is probably true about the 50 birds chosen by Elsa Bolocco?
- (A) They are native to South America.
 - (B) They are the birds she observed most frequently.
 - (C) They have the most unusual characteristics.
 - (D) They are well-known throughout the world.
189. According to the review, what is included in *Our Friends in the Sky*?
- (A) Bird-watching advice
 - (B) Personal stories
 - (C) Wildlife drawings
 - (D) Travel recommendations
190. What part of the book does the reviewer think is least successful?
- (A) The introduction

Questions 196-200 refer to the following article and letter.

Desparte Systems to Open New Data Centers
by Cheryl Wittenauer

MONTREAL—Desparte Systems, a diversified manufacturing and distributing company, has announced plans to build a 2,800-square-meter data center in Montreal as part of its effort to reorganize its global business operations. In addition, other data centers will be built in Dallas, Brussels, and Bangalore. Currently,

personnel will face minimal job loss as a result of the changes because the data centers, which are essentially large rooms customized to house computer servers, employ relatively few people. Fontaine said that the new centers will be more secure and also more energy-efficient. The transition is expected to take place over

I am writing in regard to Cheryl Wittenauer's article on Desparte Systems in the November 30 issue of *Global Business Magazine*. While I appreciate the coverage we received by your magazine, I want to call your attention to a few inaccuracies. First, we will only be closing one of our active data centers. The Mumbai center will remain open and will focus on running quality-control checks. Second, the centers in Montreal and Bangalore will be built first; the site in Dallas has not yet been officially scheduled for construction.

I would appreciate it if you would print these corrections in an upcoming issue of your magazine. If you have any questions, please call me directly at 450-555-0054.

Sincerely,

Martin Gervais

Martin Gervais, Director of Public Relations
Desparte Systems

196. What does the article imply about Desparte Systems?
- (A) It plans to borrow money.
 - (B) It will retain most of its employees.
 - (C) It is reorganizing its marketing department.
 - (D) It will merge with another company.
197. What is NOT mentioned as an expected benefit of the company's changes?
199. Why did Mr. Gervais write to Mr. Stevens?
- (A) To report factual errors in an article
 - (B) To complain about a missed magazine issue
 - (C) To request permission to reprint an article
 - (D) To praise a journalist's reportage
200. According to the letter, which data center will be closed?
